WAYS TO GIVE

Electrical Shutdown scheduled for Friday

This Friday we will be shutting down electricity to the church due to construction upgrades. This will also affect the phone systems. Email will not be affected. Electricity should be restored on Saturday.

Changes to front Lobby Entrance Coming Soon

Work on the reception area is ongoing. If you try to enter from the University Dr. entrance you may find that your normal route for getting around may be changed this week. There is a new temporary wall covering the front lobby and Pending successful inspections access may be routed to the North wing or the reception elevator. Stay tuned for more changes.

Due to noise and work in and around the lobby area, our receptionist has been relocated to the third floor. If you need to meet someone in the building during the week, it would be a good idea to *make an appointment* so we can meet you to let you in and help you navigate where you need to be. Please know that the lobby and reception desk will still be open on Sundays.

In addition, be aware that the Rogers Street entrance is closed and no longer available! For the next few months, you will need to enter the building through the main entrance on University. Other entrances will only be available on Sundays.

If you have any questions about all of this, please refer to our website at universitychristian.org/cornerstone.
